PaperCut MF

Payment Gateways & Campus Cards

PaperCutMF

**ACDI**

Over 60,000 organizations in over 100 countries utilize the power of PaperCut to reduce their printing, copying, scanning and faxing costs while also reducing their environmental impact. The Payment Gateway feature allows value to be transferred from an external system (for example PayPal) to a PaperCut personal account.

ONLINE PAYMENTS

Larger organizations such as universities or colleges may wish to provide online payment via 3rd party services such as those provided by banks or organizations like PayPal, Authorize.Net, RBS WorldPay or CyberSource. The payment interface may be provided for internal use (e.g. for student-only use), or opened up for external access to allow parents to make payments via the web.

Online Payment Gateway Workflow

External Credit Source
A server or service providing a source of funds. (ex. PayPal)

Communicate with external server
Withdraw from external source and deposit in PaperCut account.

PaperCut Server
PaperCut server with Payment Gateway module installed

Pay for Printing
Users accesses PaperCut's end-user web interface using a standard web browser. When funds are depleted, the cycle starts over.

ACDI

PaperCut integrates with almost all major payment gateways and campus card solution packages.

NuVision Networks | Accept NuVision Networks iAMECS campus card payments.

Official Payments | Supports manual transfer of funds from a credit card account.

PayEx | Accept payments from a PayEx account using the PayEx Payment Portal. Supports both manual and automatic on-demand funds transfer from PayEx. Credit Card or PayPal transfers via PayEx are not supported.

PaperCut's simple user interface

ADDING TO YOUR ACCOUNT

The design of the payment web page may be customized to match the organizations intranet or colors. The allowed payment amounts are designated by the administrator.

PaperCut integrates with almost all major payment gateways and campus card solution packages. If you currently use a product that is not on the list, please contact ACDI to determin if PaperCut integration is possible.

PaperCut MF

Campus card systems are popular among larger universities and colleges, where student cards may function as identification as well as payment for various campus services such as food, parking and book shops. PaperCut integrates with several leading campus card systems, providing the opportunity to allow students to pay for printing using their campus card.

Blackboard | Blackboard's Transact platform is a card based campus payment system. No mandatory hardware requirement. Requires a configured Blackboard system. Please contact ACDI for further details.

CardSmith | CardSmith provides card based payment and ID systems. Requires a CardSmith merchant account and cards for users. Please contact ACDI for further details.

CBORD | CBORD Odyssey PCS is a card based payment and ID system. No mandatory hardware requirement. Requires a configured CBORD Odyssey or CBORD Gold PCS system. Please contact ACDI for further details.

Heartland Campus Solutions | Heartland Campus Solutions is a payment and ID system. Requires a Heartland certificate. Please contact ACDI for further details.

My Student Account | My Student Account is a school payment system for students and parents. Requires a configured My Student Account system.

PayEx | PayEx is a comprehensive online payment system popular in Nordic countries. Each student must have a PayEx account. Supports both manual transfer and on demand transfer of funds from the PayEx account.
