COST SAVINGS CLIENT BILLING

PaperCut MF's powerful Client Billing feature empowers legal administrators to allocate print, copy, scan and fax expenses to their clients. PaperCut MF makes it simple with direct account selection popups on all networked and non-networked devices alike.

More Cost Savings features:

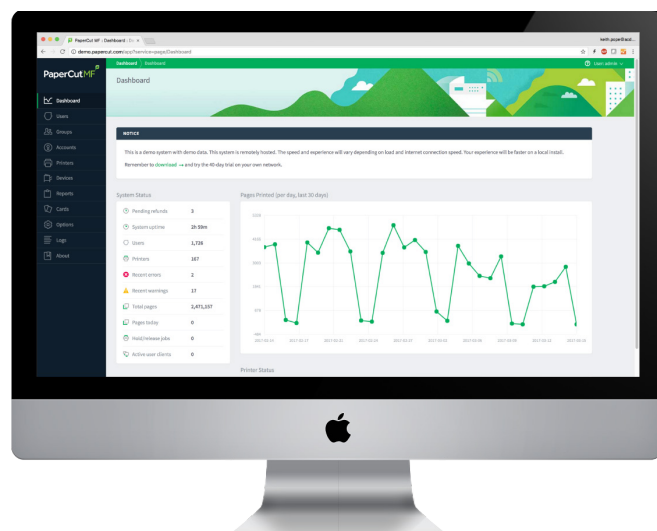

- Account Selection Copy, Scan, Fax
- Account Selection Print
- Billing System Integration

ACCOUNTABILITY WEB-BASED ADMINISTRATION

PaperCut makes it easy to manage your devices, networked or non-networked, without the complexity. Instantly see who is printing, what they are printing, when they printed, and on which device. View the central dashboard, any one of the 80 pre-built reports, and the document archive.

More Accountability features:

- Print Release
- 80+ Reports
- Rules Based Routing

SECURITY SECURE PRINT RELEASE

The legal industry is governed by many of the same regulations as other industries when it comes to PII - Personally Identifiable Information. PaperCut MF's Secure Print Release simplifies the complicated process of implementing an effective governance program.

More Security features:

- **Authentication**
- **Full Page Watermarking**
- **Print Archiving**

ACCESSIBILITY MOBILITY

Track and control printing from any device, on all popular platforms (iOS, Android, Chrome OS, Windows or Mac OS). Quickly locate any printer on your network by location, name, or code with the updated keyword search or securely manage all traffic and application deployment in your own network.

More Accessibility features:

- **Integrated Scanning**
- **Secure Mobile Print**
- **Find Me Printing**
