

WEB-BASED ADMINISTRATION

PaperCut MF is perfect for tracking and controlling any size print environment... from anywhere! A secure web-based administrative dashboard makes it easy for SysAdmins to log in at any browser on any platform to manage users and printers, enforce print rules, monitor print activity and so much more.

OVERVIEW

With PaperCut MF, no special admin software is required to perform full system administration from anywhere on the network. Use the newly redesigned standard web browser to securely configure devices, manage users, apply quotas and policies and enforce rules and restrictions. Access the web-based dashboard to generate any one of over 80 customizable reports that show a real-time snapshot of the print environment.

Mobility Print? Find-Me printing? Integrated Scanning? Just logon to the dashboard! Find the latest information about release and development activity at PaperCut or use the convenient Environmental Impact gadget to assess your carbon footprint.

- View a list of all users
- Perform bulk user operations
- View, edit, and create shared accounts
- Define printer filter rules and restrictions
- Run one click and Ad-hoc reports
- Control administrator access and security
- View all recent print jobs
- Access update news
- And MORE!

SOLUTION

- Any brand, any platform
- Manage what you can measure
- All data in one secure location
- Environmental accountability
- Access the system from anywhere on the network
- View archived documents for decision-making
