

# One Solution That Solves More

Take the complexity out of print queue deployment with Print Deploy. Get the right driver and the right print queue to the right person in the right location automatically. It's just one of several new (or improved) features in PaperCut 19.1. This release features secure on-premise OCR, fuss-free scanning to SharePoint Online, and more.

## PRINT DEPLOY

Automatically deploy print queues as mobile staff move between branches, stores or campuses. Easily install native drivers with default settings and finishing options. Print Deploy works well in server-based and serverless environments.

**NEW!**

## Purchase Extension Packs

Unlock Print Deploy for multiple zones with the new *Advanced Print Enablement Pack* or unlock locally hosted OCR with the *On-Prem OCR* and *Document Processing Pack*.

# One Solution That Solves More

Promote better productivity, cost savings, and security.

## On Premise OCR

Create intelligent text-searchable and editable documents hosted locally.

## Language Selection at the MFD\*

Wow multilingual teams with user-selected languages that follow you to every printer and location.

\*Available for Ricoh and Kyocera devices only – more to come!

## Scan to SharePoint Online

Unlock new productivity by scanning to SharePoint Online document libraries, sites and subsites in one click.

## Redesigned Reports

Your favorite one-click reports sport a new look while customized reports give you more flexibility.

## 19.1 Talk Track

### Quick queue deployment with **Print Deploy...**

“Saves you time by deploying queues and drivers easily at scale.”

“Saves money on purchasing and maintaining on-premise AD just to deploy print queues.”

“Creates value with one complete solution for print management and print queue deployment.”

### Create text-searchable documents with **On Premise OCR...**

“Designed to keep OCR on-premises for those with strict policies about data sovereignty.”

“High performance servers process your documents quickly.”

### Scan straight to **SharePoint Online...**

“Saves you time with preconfigured settings to scan to your SharePoint document library.”

“One-click scanning saves you time at the MFD and gives you faster access to your documents.”
